

# An investment of \$10 could save a life!

## Mosquito Nets keep children safe

Orphaned boys and girls are happy in Childcare Worldwide's children's homes. They have enough to eat, they each have their own bed, they go to school, and they enjoy the care they receive. However, they still fear becoming infected with malaria. Mosquitoes are mainly active at night, so it is vitally important for each child's bed to be covered by an insecticide-treated mosquito net.

## Malaria Statistics

- 40% of the world's population is at risk for malaria infection
- 300-500 million new cases occur each year
- More than 75% of all new cases appear in Sub-Saharan Africa
- 1-3 million deaths occur each year, mostly among young children in Sub-Saharan Africa

## Who is Childcare Worldwide?

Our unique programs not only help feed hungry children and their families, they also help children receive an education that leads to employment. Children are trained to have Christ-like character so they will grow up to be leaders with integrity.

**Our Mission** is to build a bridge between concerned people in the West and children in the developing world, to help meet their spiritual and physical needs through a ministry that emphasizes education and is based on the gospel of Jesus Christ.

## Where we Work

Haiti, India, Kenya, Uganda, Mexico, Peru, Sri Lanka, the Philippines, China and Thailand

Low overhead: **\$0.97** of every dollar goes to helping the children.
